Welcome to ModuLog

The moduLog is a unique U.K. handmade glamping pod, cabin or garden room.

Choose from a range of designs or with our unique modular design create your own bespoke summer house, garden studio, home office or glamping pod.

Handcrafted by experienced tradesmen using locally sourced materials with handmade oak joinery.

About us

We are a **family** building renovation and oak joinery business with over **40 years'** experience.

Our workshop and yard is situated in an ancient woodland in Mid Wales, there we make all the moduLog pods, cabins and garden rooms.

We have taken all our knowledge and skill from 40 years in the construction trade to design and build a **unique modular building** using **local materials**.

Each moduLog is **hand crafted** by our **tradesmen** and is built with **quality in mind**.

Endless possibilities

With its unique modular design the moduLog can be used for many different uses.

- **Camping accommodation (Glamping)**
- **Holiday cabin**
- **Home office**
- **Guest room.**
- **Garden Summer house.**
- **Studio**

Can be placed on all terrains with no major groundworks needed.

The **moduLog** is built for all round year use and is designed to withstand all weathers.

It has many unique design features including.

- Unique bespoke designs
- Locally sourced materials
- Fully insulated
- Double glazing
- All season use
- Handmade oak windows and doors
- Large glazing for unspoilt views
- Environmentally friendly
- Blends into environment
- Customized to suit your needs and budget
- Installed anywhere

Nationwide Delivery

We deliver and install throughout the U.K. and if you have access problems our cabin kits can be taken anywhere.

ModuLog office/garden room

With the **large glazing** and many design options the ModuLog makes an ideal garden room or office.

As the ModuLog is made up of modules you can design your moduLog to suit your work space needs and the size of your garden.

Any amount of electrical sockets, telephone lines and Data points can be built in by our fully trained electricians.

A 12v solar system is available which will run your lighting, or simply connect onto existing 240v supply.

Heating can be supplied by an electric heater, underfloor heating or wood burning stove.

With the modular design you can have a **moduLog at any length**.

You can also fix two or more moduLog pods together in a variety of ways to make larger units.

There are many different ways of making the moduLog fit in with your office needs.

We can help you with a bespoke design.

Toilets and wash rooms can also be built into your moduLog design.

With its modular design the moduLog could have a **many uses** including a gym, games room, summer house, guest accommodation and home office.

ModuLog designs
